Works for Magazines :

My works for children magazines started in 2003 with high quality children magazine Sluníčko (Sun), the most widely read one in the Czech Republic . This magazine supports original Czech creation and for this reason I started to cooperate with it. Each month I create 5 - 10 original pages of illustrations, cutout pictures and stories combined with pictures in the text. Thanks to this cooperation during the last 10 years, my work started to be well known to the Czech kids and parents.

From other magazines, I am working for the magazine Maminka (Mummy) , pointed to both the Czech and Slovak readers and for the magazine Šikovniček (Skilful)– Slovak Republic.
